Global Leaders in Animal Transportation

Intradco is the leading equine, livestock and exotics transport and charter specialist. Our experience with animal transport has developed over 30 years of professional care and commitment to providing the safest logistics for animals of all shapes and sizes.

Our experience includes coordinating charters for Prix de l'Arc de Triomphe, Breeders' Cup and Dubai World Cup winners, as well as more unusual movements including transporting 247 deer from USA to Russia, and 400 alpacas from Chile to London.

In-flight Equipment Innovation

We are a company at the forefront of designing equipment specifically for animal transportation and our leading-edge equipment is widely regarded as 'best in class' by our global customer base.

Through continued design innovation, our growing range of stalls and penning provides greater flexibility with movable partitions, drop-top and collapsible-top designs and added safety and comfort features for their occupants.

Available for long-term lease or rental, Intradco equipment is compatible with Boeing 747 or 777 freighters, McDonnell Douglas MD-11s, Airbus types and other wide-bodied cargo aircraft, making it a favourite with many of the world's leading airlines.

Leasing and Rental of Stalls

Discover the flexibility, comfort and safety benefits of Intradco's in-flight equipment through long-term lease or rental. Contact us on +44 (0)1293 572872 or email enquiry@intradco-global.com

Specialists in Equine, Livestock and Exotic Animal Air Charters

Over the past three decades, Intradco has developed a network of professionals dedicated to the safe journey and constant care of our customers' live cargo.

Our reputation for providing secure transportation for horses puts us as the first choice for many leading horse shippers, owners and trainers. Our experience in accommodating unusual species has also made us popular with game reserves and animal welfare organisations, where animal well-being during transportation is paramount.

Airline Partnerships

Our expertise and specialist equipment gives airlines the ability and confidence to operate within the complex market of animal transport. If you would like to speak to us about becoming a strategic partner and taking advantage of our animal transport knowledge please contact us.

Handled with Care

1 Pre-flight Preparations

We offer a complete end-to-end solution, starting with sourcing the most appropriate aircraft. Intradco air stalls have full width front and rear ramps and individual rear doors to avoid kicking risk when loading more than one horse. They are totally adjustable to ensure horses and foals can be accommodated with ease and comfort. Our pre-flight planning routine ensures that no detail is missed.

2 During Transportation

The interior design of Intradco air stalls comes from years of experience and acting on the feedback of our customers. This, coupled with our professional team of flying grooms and animal attendants, creates the most comfortable environment while reducing stress levels for horses during transportation.

3 Arriving Safe and Sound

Prior to arrival, we coordinate with airport handling services to ensure a swift and secure handover of horses from the aircraft to their final destination. All Intradco equipment allows for easy cleaning and disinfecting ready to be configured for the next occupant. Rest assured, with Intradco's wealth of experience, your precious cargo is always taken from start to finish in total care.
