Envirotainer°

TECHNICAL SPECIFICATION

Envirotainer® container RKN e1

Designed for extreme requirements of the healthcare industry, the RKN e1 container maintains product temperatures in the +2 to +8 °C range, controlled room temperature (+15 to +25 °C) range or at any chosen set temperature within the operating range of ± 0 to +20 °C. The RKN e1 is a certified air cargo ULD (Unit Load Device) ensuring seamless handling throughout the supply chain worldwide. The unit can be carried on board the most common long-haul aircraft types.

Drawing on the benefits of the shape and size of the Envirotainer dry-ice container, the RKN e1 uses a different technology; compressor cooling and electrical heating.

Key features for consistent temperature-control:

- Insulated container shell
- · Electrical heating and compressor cooling
- One energy source. Rechargeable batteries that can be recharged at standard AC-power connection points
- Air circulated by the heating/cooling unit is close to the set temperature
- Enhanced air circulation inside the container ensures a low temperature gradient within the cargo space
- Convenient and simple loading for an optimized load thanks to the use of wide doors and spacers on the inside walls
- An easy to use control unit allowing simple operation of the container
- Data logging functionality (RAPID)
- Fully redundant charging, cooling and heating system

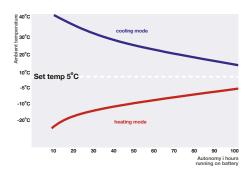

Performance data:

- Autonomy running on batteries > 100 h in a typical shipment scenario (dependent on ambient temperature exposure)
- Autonomy running on batteries at extreme conditions minimum 30 h
- \bullet Product set temperature range between ±0 to +20 °C (ideal performance at set temperature +5 °C)
- Maintains product temperature from +2 °C to +8 °C at container set temperature +5 °C
- Batteries charged (from 0 to 100%) in 8 h

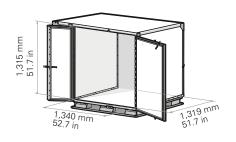

Envirotainer is an open platform service provider - our products are made available world-wide through a range of partners in the airline and forwarding industry. Contact your service provider or contact Envirotainer directly to test the RKN e1 container.

Operating time (without recharging)

Internal dimensions

Envirotainer® container RKN e1

Temperature controlled system

Thermostat-controlled air conditioning system with compressor cooling and electrical heating. Powered by rechargeable batteries.

Recharging power supply	100 - 240 Volt AC 50 - 60 HZ
Set temperature range	±0 to +20 °C +32 to +68 °F
Operation temperature range at set temp +5 °C	-20 to +40 °C -4 to +104 °F
Operation temperature range at set temp +20 °C	-4 to +44 °C +25 to +111 °F
Non-operational storage temperature range	-40 to +50 °C -40 to +122 °F
Max recharging time to full charge	8 h

Dimensions

Air craft code	RKN /LD3	
External cube (volume)	4.8 m 169.5 cu	
External dimensions (L x W x H)	2000 x 1530 x 1620 m 78.7 x 60.2 x 63.8 in	
Internal dimensions (L x W x H)	1340 x 1319 x 1315 m 52.7 x 51.9 x 51.7 in	m
Internal cube (volume) for cargo	2.3 m 81.9 cu	₃ ı.ft.

Weight

Tare weight	635 1400	
Max net weight of cargo	953 2101	kg Ibs

Other information

Usable for aircraft A300, A310, A330, A340, A380, B747, B767, B777, DC10, IL86, MD11, I 1011

10 m cable as well as adapters for charging worldwide provided with unit Forkliftable with a slot-height of 95 mm (3.74 in)

Contact information

It is easy to implement and work with an Envirotainer® solution. We offer a range of container types for convenient short and long term leasing from a worldwide network of stations.

Please contact one of our three operations centers for container leases or visit www.envirotainer.com for more information.
